Summary

Product Designer with 5+ years of experience designing complex B2B/B2C products across SaaS, Web3, fintech, and AI, focused on product strategy, scalable systems, and simplifying complex workflows. Led product design at Kryptos, serving 40K+ active users and 100+ enterprise businesses.

Experience (5+ years)

Kryptos

Dec 2021 – Present

Kryptos is a crypto intelligence and financial platform helping individuals, businesses, and professionals manage, analyze, and report on digital assets.

Chief Product Designer Apr 2026 – Present

- Lead product design and product direction across B2C and B2B products, spanning portfolio management, financial workflows, AI, enterprise, and platform experiences.
- Partner with product, engineering, and business teams to define product strategy, priorities, roadmaps, and end-to-end user experiences from discovery through launch.
- Shape scalable product foundations and new opportunities while balancing user needs, business goals, and technical constraints.

Design Lead Apr 2022 – Apr 2026

- Led end-to-end product design across web and mobile for 40K+ active users and 100+ enterprise businesses.
- Architected experiences supporting 1B+ transactions, 5,500+ integrations, and complex multi-portfolio workflows across B2C and B2B products.
- Transformed Kryptos from a crypto portfolio tracker into a broader financial platform, simplifying complex portfolio, integration, reporting, and enterprise workflows across crypto tax, DeFi, AI, and other product areas.
- Developed UX for Kryptos Connect, simplifying crypto connectivity across 150+ blockchains, 100+ exchanges, and 50+ wallets through a unified developer platform.
- Shaped key product decisions across pricing, conversion, AI, business opportunities, and technical feasibility.
- Created scalable product experiences for users across 35+ countries, accounting for diverse financial workflows, user needs, and regional requirements.
- Mentored 2 junior designers through weekly critiques and 1:1s, strengthening problem framing and UX thinking while remaining hands-on with key product design deliverables across web and mobile.

UX Designer Dec 2021 – Apr 2022

- Crafted core crypto portfolio and account-management experiences, including user flows, information architecture, wireframes, prototypes, and high-fidelity UI.
- Simplified complex digital asset data and workflows for users managing assets across multiple exchanges and wallets.

Unbiased

Unbiased is a data marketplace connecting organizations that need high-quality training datasets with contributors who collect and annotate data.

UX Designer Jul 2021 – Dec 2021

- Designed UX across dataset discovery, project creation, and data collection/annotation workflows for B2B users and contributors.
- Simplified complex marketplace and data workflows into clear, scalable experiences for both requesters and contributors.

Access Healthcare

Access Healthcare, a global provider of technology-enabled revenue cycle management (RCM) and business process outsourcing solutions for hospitals, health systems, and healthcare providers.

Data Scientist Intern Dec 2019 – Jan 2020

- Worked on data analysis initiatives, gaining experience in solving business problems through data-driven approaches.

Education

IIT Madras (Indian Institute of Technology, Madras)

Jul 2016 – Jul 2021

B.Tech & M.Tech (Dual Degree) in Bio-Engineering | Computational

Skills

Product Design

Product Strategy, Product Thinking, End-to-End Product Design, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Visual Design

User Research & Validation

User Research, Contextual Inquiry, User Interviews, Usability Testing, User Journey Mapping, Problem Framing, Synthesis, Design Validation

Design Systems & UI

Design Systems, Design Tokens, Component Libraries, Responsive Design, Accessibility, WCAG, UI Design, Design Patterns

Strategy & Collaboration

Design Strategy, Requirements Definition, Workshops, Cross-functional Collaboration, Stakeholder Management, Design Critique, Design Reviews

Data & Experimentation

Data-informed Design, Product Analytics, A/B Testing, Usability Metrics, Conversion Rate Optimization, Iterative Design, Experimentation

AI & Emerging Interfaces

AI Product Design, Generative AI, Conversational UI, Agentic UX, Vibe Coding / AI-assisted Development, AI-assisted Prototyping, Human-AI Interaction

Tools

Figma, Adobe Creative Suite, Procreate
